

I have been listening to Air 1 for about 3 years now. The programming on this station is a fresh change from other options. It provides uplifting, encouraging music that changes lives in a positive way. The music and DJ's are also very "family friendly"; I don't have to worry if my children are going to hear something offensive. I feel it would be very devastating to the community if AIR 1 was displaced by an LPFM broadcaster providing other programming. There are so many stations out there that both the music they play, and the DJ's talk, are very sexually explicit and promote bad morals and choices. AIR 1 is one of the few stations that I can count on to play good, "clean" music and promote values I feel comfortable listening to. The service AIR 1 provides is very valuable to the public interest. The world we live in today is full of declining values and negativity. We need a radio station we can listen to that provides encouragement, "family friendly" entertainment and even opportunities to help our fellow citizens. Please don't enact rule changes that will cause AIR 1 to lose their FM place in our air waves. Thank you.
